INTRODUCTION AND INSTRUCTIONS

BACKGROUND

This document provides a working outline of the regional and local planning requirements that are included in the Workforce Innovation and Opportunity Act (WIOA) and final regulations to guide discussions with regional and local partners. Within this document, pages 1-2 outline the State of Illinois' vision for workforce and WIOA implementation, including local and regional planning. Please read the state vision, as it is intended to inform the local and regional planning process.

The planning requirements that are included in the WIOA and final regulations are outlined in the State of Illinois Regional and Local Planning Guide on pages 3-4. Each local workforce innovation area in Illinois will submit a plan that includes the *regional planning components* (developed by the regional planning team) and *local planning components* (developed by the LWIA) as required by the U.S. Departments of Labor and Education. For purposes of regional and local plan compliance, **it is expected that regional and local plans follow the format of this Planning Guide, beginning with the chapter headings and addressing each item of required content in that chapter.**

Note: This guide and the information requirements are based on the latest regulatory information available at the time of publication. Additional information may be required based on any new federal or state regulations that are issued after the release of this guide.

STATE OF ILLINOIS WORKFORCE VISION

WIOA requires the state, regional and local workforce plans to be developed in concert with the core and required partners and stakeholders. Illinois' planning process begins with the state's vision.

Vision

Illinois' workforce system will meet employers, jobseekers, and community members where they are, centering the customer experience in an interoperable, equitable, and accessible manner to ensure all customers achieve their goals. We will support employers by building diverse, quality career pathways and provide effective training, education, and economic opportunities for jobseekers and communities to thrive.

STRATEGIES

The vision and principles laid the groundwork for the 11 strategies of the WIOA State Plan. The vision, principles and key strategies developed at the state level are the foundation of the planning process. The strategies are as follows:

1. The Workforce Development System uses a customer-centered approach to service delivery.
2. The Workforce Development System advances diversity, equity, inclusion and access.

3. WIOA partners and other workforce and education systems in Illinois enhance coordination and collaboration.
4. Jobseekers and employers have a broader awareness of the Workforce Development System.
5. The Workforce Development System improves local service delivery through enhanced support of frontline workers.
6. The Workforce Development System supports, informs and enhances employers' talent strategies.
7. The Workforce Development System sets a good-job standard for training programs and employers that work with the Workforce Development System.
8. The Workforce Development System will build out tools and practices that can help employers adopt a culture that promotes equity and accessibility.
9. The Workforce Development System educates and supports jobseekers regarding how to navigate the labor market.
10. The Workforce Development System interacts with jobseekers in the places where they live and visit.
11. The Workforce Development System will use a data-informed approach to reduce barriers to services for jobseekers who have historically been underserved.

PROGRAM COORDINATION AND SERVICE INTEGRATION

The State of Illinois is committed to the integration of the core and required partner programs throughout the workforce system. The planning process must be informed by the service integration activities outlined in the updated IWIB Service Integration Policy ([WIOA Policy WIOA-1.13](#)). The policy defines service integration as a combination of strategies to align and simplify access to one-stop center services and supports for employers, job seekers and system customers with the goal of providing the best experience possible. Service integration may occur across entities delivering specific services or programs, across time as customer needs change, or both.

This planning guide emphasizes that regions and local areas must demonstrate their commitment to service integration by providing specific plans and actions for working toward alignment, as well as any challenges to aligning the plans and activities within each region and local area. As the planning process evolves, regions and local areas must demonstrate the alignment with the strategic plans of other required partners and be sure to integrate other relevant parts when applicable. Local Planning must also align with the community colleges' Perkins CTE 4-Year Plan. Local Workforce Innovation Boards and Adult Education providers are required to be consulted through the completion of the Comprehensive Local Needs Assessment and the Perkins Local Application.

REGIONAL AND LOCAL PLAN COORDINATION

According to the WIOA final rule, a regional plan is required to meet the purpose of developing, aligning, and integrating service delivery strategies; supporting the state's vision and strategic and operational goals; and to coordinate resources among multiple LWIAs in a region. This approach is intended to align resources between multiple local workforce boards. WIOA requires the local workforce board, in partnership with the chief elected official(s), to submit a local plan to the Governor.

REGIONAL PLANNING REGULATIONS

The Workforce Innovation and Opportunity Act and final regulations require local workforce boards and chief elected officials (CEO) within an identified planning region to participate in a regional planning process that results in the preparation of a regional plan that includes:

- The establishment of regional service strategies, including use of cooperative service delivery agreements (§ 679.510(a)(1)(ii));
- The development and implementation of sector initiatives for in-demand industry sectors or occupations for the planning region (§ 679.510(a)(1)(iii));
- The collection and analysis of regional labor market data (in conjunction with the state), which must include the local planning requirements at § 679.560(a)(1)(i), (ii) and (iv);
- The coordination of administrative cost arrangements, including the pooling of funds for administrative costs, as appropriate (§ 679.510(a)(1)(v));
- The coordination of transportation and other supportive services as appropriate (§ 679.510(a)(1)(vi));
- The coordination of services with regional economic development services and providers (§ 679.510(a)(1)(vii)); and
- The establishment of an agreement concerning how the planning region will collectively negotiate and reach agreement with the Governor on local levels of performance for, and report on, the performance accountability measures described in WIOA Sec. 116(c) for local areas or the planning region (§ 679.510(a)(1)(viii)).

LOCAL PLANNING REGULATIONS

The local plan serves as a four-year action plan to develop, align and integrate the region and local area's job-driven workforce development systems and provides the platform to achieve the local area's visions and strategic and operational goals. At the end of the first 2-year period of the 4-year local plan, each local board shall review¹ the local plan and the local board, in partnership with the chief elected official, shall prepare and submit modifications to the local plan to reflect changes in labor market and economic conditions or in other factors affecting the implementation of the local plan. Additional criteria have been included in this Planning Guide to assist regional and local workforce areas in developing responses to the implementation of recommendations from the Governor's Commission on Workforce Equity and Access, the Illinois Workforce Innovation Board (IWIB) Equity Task Force and the IWIB Service Integration Work Group. The local plan sets forth the strategy to:

- Direct investments in economic, education and workforce training programs to focus on providing relevant education and training to ensure that individuals, including youth and individuals with barriers to employment, have the skills to compete in the job market and that employers have a ready supply of skilled workers (§ 679.500(a)(1));
- Apply job-driven strategies in the one-stop system (§ 679.500(a)(2));
- Enable economic, education and workforce partners to build a skilled workforce through innovation in, and alignment of, employment, training and education programs (§ 679.500(a)(3)); and
- Incorporate the local plan into the regional plan per § 679.540. At the end of the first 2-year period of the 4-year local plan, each local board shall review the local plan and the local board, in partnership with the chief elected official, shall prepare and submit modifications to the

¹ Workforce Innovation and Opportunity Act, U.S.C. 29 § 3123(a)

regional and local plans to reflect changes in labor market and economic conditions or in other factors affecting the implementation of the local plan (§ 679.560(a)).

ILLINOIS PLANNING REGIONS

WIOA Section 106 requires the Governor to identify “planning regions” to align workforce development activities and resources with larger regional economic development areas. After an analysis of the labor market information and other data factors, the State has determined that the WIOA planning regions align with the existing ten Economic Development Regions (see Appendix I). The Economic Development Regions were determined based on the following factors:

- Workforce: Demographics, Labor Force, Commuting Patterns
- Geography: Metropolitan Statistical Areas (MSAs)
- Business & Industry: Employers & Major Industries

In accordance with WIOA Section 106(a)(2), a single local area may not be split across two planning regions. Local areas must be contiguous to be a planning region and effectively align economic and workforce development activities and resources (20 CFR 679.210). There are three LWIAs in Illinois that are split across state planning regions. **A renewed waiver from this requirement is being sought from the U.S. Department of Labor as a part of the 2024-2028 Unified State Plan². Local areas split across multiple planning regions may elect to participate in regional planning in the region of their choice or in both.**

The State of Illinois recognizes that the realignment of a local workforce area requires a significant amount of planning and effort at the state and local levels. Technical assistance is available to local workforce areas that voluntarily choose to realign programs, consolidate activities and/or merge local workforce areas.

PLAN ORGANIZATION

All local workforce innovation areas in Illinois must submit a plan that includes both the regional and local planning components outlined in this planning guide.
