Population Trends

Region
East Central

Illinois has a population of 12,812,508 and is the 6th largest state in the nation.

Counties in Region

County	Population in 2020
Champaign	205,865
Vermilion	74,188
Iroquois	27,077
Douglas	19,740
Piatt	16,673
Ford	13,534
Total	357,077

Population Trends

Region
 East Central ▼

The median age in Illinois has been steadily increasing over the past decade. In 2019, the median age was 38.6 compared to 36.6 in 2010. Statewide, just over 16% of Illinois residents are age 65 and over.

Population by Age Group

Age Group	2019 Population
Ages 0 - 5	20,485
Ages 5 - 9	20,461
Ages 10 - 14	20,601
Ages 15 - 19	30,300
Ages 20 - 24	41,646
Ages 25 - 29	24,732
Ages 30 - 34	22,344
Ages 35 - 39	21,619
Ages 40 - 44	19,507
Ages 45 - 49	19,090
Ages 50 - 54	18,604
Ages 55 - 59	21,725
Ages 60 - 64	22,091
Ages 65 - 69	18,689
Ages 70 - 74	14,272
Ages 75 - 79	10,078
Ages 80 - 84	7,185
Ages 85+	7,902
Total	361,331

Education Attainment of Population 25 & Over

Over 63% of Illinois residents 25 & over continued education past high school.

Population Ages 25+

Less than 9th Grade	5,897
9th-12th grade	12,167
High School Grad or Equivalent	68,076
Some College	47,335
Associate's Degree	21,396
Bachelor's Degree	38,815
Graduate or Professional Degree	34,784
Total	228,470

Population by Largest Cities in Region

Statewide, Illinois has a current population of 12.8 million people (4% of the US Population). The population of Illinois declined each year between 2013 and 2019, but it increased in 2020.

Veteran Population by Age, Type, Race, & Education

Region
East Central

18,545

Regional Veteran Population

Statewide, there are 570,264 veterans in Illinois, which is about 4% of the total population. On the national level, veterans represent about 6% of the total population.

Source: U.S. Census Bureau, 2015-2019 American Community Survey, Table S2101.

Population with Disabilities by Age and Type

Region
East Central

40,489

People with disabilities in region

Approximately 11% of the population (or 1.4 million people) in Illinois have some type of disability. The most prominent disabilities include ambulatory and the inability to live independently.

Share of Persons with Disabilities by Age

Share of Persons with Disabilities by Type*

*Sum of percentages can exceed 100 due to persons with multiple disabilities.

Population by Language

Region
East Central

Statewide, 23.1% of Illinois residents speak a language other than English at home. On the national level, 21.6% of the population speaks a language other than English at home.

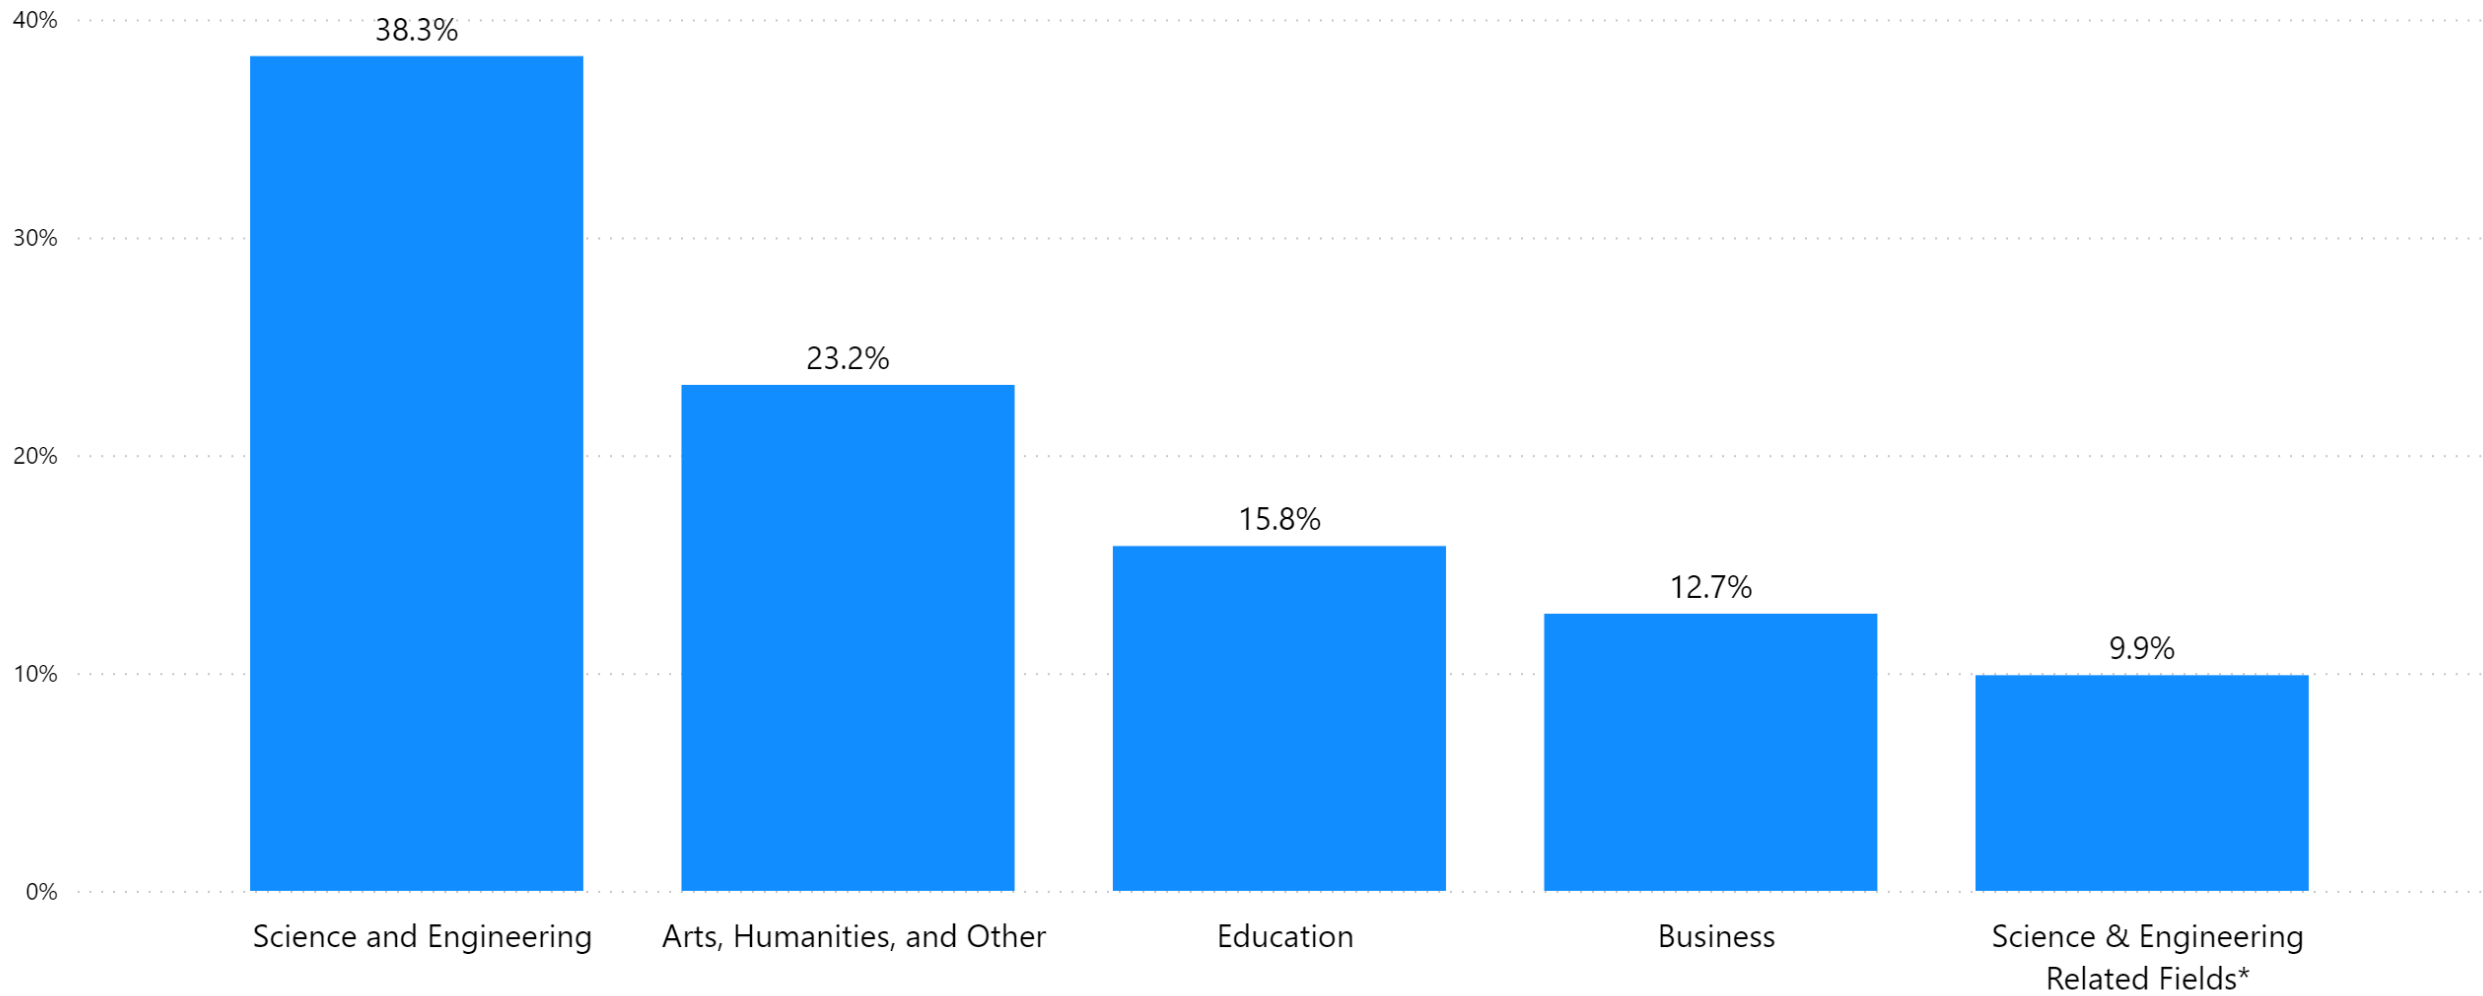

Source: U.S. Census Bureau, 2015-2019 American Community Survey, Table S1601.

Bachelor Degree Population by Field

Region
East Central

In Illinois, 36% of individuals 25 or older hold at least a Bachelor's degree, which is higher than the national figure of 32%.

*E.g., pre-med, engineering technology.

Sectors, Industries & Clusters

The terms "sector", "industry" and "cluster" are sometimes a source of confusion, and can be an unnecessary source of debate among various stakeholders.

Sector describes a large segment of the economy, while **Industry** refers to a much more specific group of companies or businesses. The terms industry and sector are often used interchangeably to describe a group of companies that operate in the same segment of the economy or share a similar business type.

A **cluster** is a regional concentration of related industries in a particular location. Clusters are a striking feature of economies, making regions uniquely competitive for jobs and private investment. Adding to the confusion, the education community established a national framework of 16 "career clusters", which links programs of study to occupations with similar knowledge and skill requirements.

The table below is a standardized list of Industries from the North American Industry Classification System (NAICS) at its highest, "2-digit" sector level. Within each of these sectors, NAICS groups similar companies into ever-increasing levels of granularity, down to the "6-digit" level. The table below right shows how this works in the Construction sector, with just a partial list of more detailed codes.

Code	Industry Title
11	Agriculture, Forestry, Fishing and Hunting
21	Mining
22	Utilities
23	Construction
31-33	Manufacturing
42	Wholesale Trade
44-45	Retail Trade
48-49	Transportation and Warehousing
51	Information
52	Finance and Insurance
53	Real Estate Rental and Leasing
54	Professional, Scientific, and Technical Services
55	Management of Companies and Enterprises
56	Administrative and Support and Waste Management and Remediation Services
61	Educational Services
62	Health Care and Social Assistance
71	Arts, Entertainment, and Recreation
72	Accommodation and Food Services
81	Other Services (except Public Administration)
92	Public Administration

Codes	Titles
23	Construction
2361	Residential Building Construction
236115	New Single-Family Housing Construction (except For-Sale Builders)
236116	New Multifamily Housing Construction (except For-Sale Builders)
236117	New Housing For-Sale Builders
236118	Residential Remodelers
2362	Nonresidential Building Construction
236210	Industrial Building Construction
236220	Commercial and Institutional Building Construction
2371	Utility System Construction
237110	Water and Sewer Line and Related Structures Construction
237120	Oil and Gas Pipeline and Related Structures Construction
237130	Power and Communication Line and Related Structures Construction

There are literally thousands of 6-digit NAICS codes, which may be viewed at naics.com/search/. For our purposes, 2 to 3 digit NAICS codes provide sufficient detail.

NAICS is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. Like all data, NAICS does have some limitations and caveats. For example, NAICS classifies businesses based on their primary activities, but a specific business may have significant activity in other sectors. For example, Wal-Mart's primary activity is a retailer, but it employs thousands of workers focused on Transportation / Distribution / Logistics at its distribution centers and in-house trucking division.

Readers are cautioned to not make assumptions on the types of businesses or occupations implied by high level groupings.

For example, the NAICS “Information” sector includes industries primarily focused on: publishing, motion pictures, broadcasting, internet publishing and broadcasting, telecommunications, data processing etc. Occupations requiring “information technology” skills are embedded in companies from all sectors. We must look beyond the Information sector to discern the full extent of the supply and demand for jobs and workers needing IT skills. There are significant numbers of tech workers spread across manufacturing, finance, government and many other sectors. Likewise, “Energy” is not a sector in the NAICS model, but energy-related industries and occupations are found in sectors such as: Construction; Manufacturing; and Professional, Scientific and Technical Services, among others.

Regional Sector Analysis

Change in Employment and Location Quotient

The following maps show the "where" for selected economic data at the regional and county levels. This view allows readers to more easily see how each county contributes to the overall economic engine in a region and how regions as a whole compare to other areas of the state.

The **Employment Change** maps indicate the level of gain or loss of employment between Q4 2017 and Q4 2018. Use these maps to understand where gains and losses occurred, identify targets of opportunity where skilled workers may be in greater demand and areas which may be in need of attention.

The **Location Quotient** maps indicate counties where sector employment is most and least concentrated. The LQ value indicates how concentrated employment in a given sector compares to the nation.

A value of 1.0 means employment is in line with the overall national employment for that sector. A value greater than 1.0 means that sector's employment is more heavily concentrated here than in the nation, while values less than 1.0 indicate employment is less concentrated than in the nation. The farther away from 1.0, the greater the difference between what is happening in that county compared to the nation.

NOTE: Counties shaded black have insufficient numbers of workers to reach the federal employment reporting threshold.

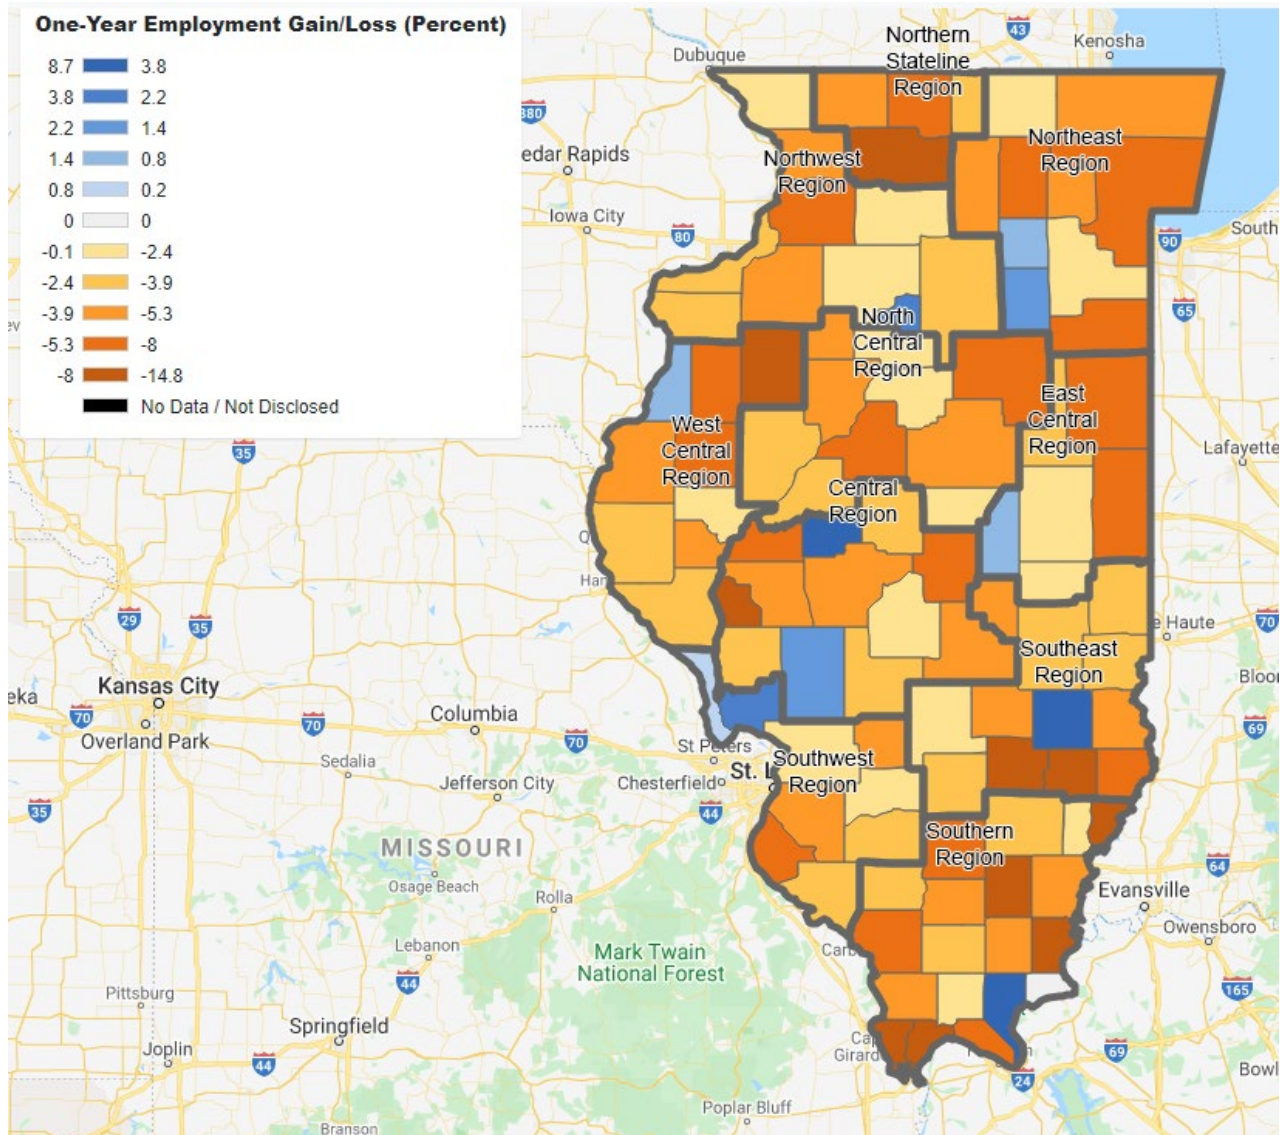

Use these maps to quickly see where sector-based employment is concentrated and the degree to which it is above or below the national level. Areas with high LQs may have an inherent advantage, while areas with low LQs may be at an inherent disadvantage for supporting a particular sector's businesses with skilled workers.

The supply gap ratio is a proxy measure that provides insight on how closely supply aligns with demand for selected occupations. The calculation of the ratio is supply / demand. In this case, the supply is the number of program completions in the region associated with the occupation and the demand is the estimated number of regional job openings. A gap ratio of one indicates one completer per projected job opening. Gaps lower than one indicate more job openings than completers, and gaps greater than 1 indicate more completers than openings.

Completers do not include most apprenticeships and true OJT provided solely by employers.

Supply Gap Analysis for Occupations Requiring an Associate's Degree

The supply gap ratio is a proxy measure that provides insight on how closely supply aligns with demand for selected occupations. The calculation of the ratio is supply / demand. In this case, the supply is the number of program completions in the region associated with the occupation and the demand is the estimated number of regional job openings. A gap ratio of one indicates one completer per projected job opening. Gaps lower than one indicate more job openings than completers, and gaps greater than 1 indicate more completers than openings.

Completers do not include most apprenticeships and true OJT provided solely by employers.

Supply Gap Analysis for Occupations Requiring a Bachelor's Degree

The supply gap ratio is a proxy measure that provides insight on how closely supply aligns with demand for selected occupations. The calculation of the ratio is supply / demand. In this case, the supply is the number of program completions in the region associated with the occupation and the demand is the estimated number of regional job openings. A gap ratio of one indicates one completer per projected job opening. Gaps lower than one indicate more job openings than completers, and gaps greater than 1 indicate more completers than openings.

Completers do not include most apprenticeships and true OJT provided solely by employers.

Supply Gap Analysis for Occupations Requiring more than a Bachelor's Degree

The supply gap ratio is a proxy measure that provides insight on how closely supply aligns with demand for selected occupations. The calculation of the ratio is supply / demand. In this case, the supply is the number of program completions in the region associated with the occupation and the demand is the estimated number of regional job openings. A gap ratio of one indicates one completer per projected job opening. Gaps lower than one indicate more job openings than completers, and gaps greater than 1 indicate more completers than openings.

Completers do not include most apprenticeships and true OJT provided solely by employers.

Demand Occupations Requiring a Certificate or License

Occupation	Average Annual Job Openings	Skills	Hourly Entry Wage	Hourly Experienced Wage
Real Estate Sales Agents	31	Active Listening, Negotiation, Persuasion	12.32	24.58
Hairdressers/Hairstylists/Cosmetologists	48	Active Listening, Speaking, Service Orientation	9.55	15.68
Automotive Service Techs/Mechanics	65	Equipment Maintenance, Repairing, Troubleshooting	13.18	23.64
Fitness Trainers & Aerobics Instructors	68	Instructing, Service Orientation, Social Perceptiveness	9.43	21.16
Library Technicians	34	Reading Comprehension, Speaking, Active Listening	11.8	21.9
Bus/Truck/Diesel Engine Mechanics	20	Repairing, Troubleshooting, Operation & Control	15.01	27.31
Licensed Practical & Vocational Nurses	45	Service Orientation, Active Listening, Coordination	20.25	26.22
Nursing Assistants	207	Service Orientation, Active Listening, Social Perceptiveness	12.89	16.27
Medical Secretaries	67	Speaking, Active Listening, Service Orientation	13.68	20.38
Preschool Teachers, Ex. Special Education	63	Speaking, Learning Strategies, Instructing	11.14	18.19

Demand Occupations Requiring an Associate's Degree

Occupation	Average Annual Job Openings	Skills	Hourly Entry Wage	Hourly Experienced Wage
Life/Phys/Social Science Techs, All Other	15	Active Listening, Critical Thinking, Reading Comprehension	13.98	31.2
Physical Therapist Assistants	15	Active Listening, Monitoring, Social Perceptiveness	20.83	33.61
Registered Nurses	282	Active Listening, Social Perceptiveness, Service Orientation	25.35	34.74
Computer User Support Specialists	59	Active Listening, Speaking, Reading Comprehension	20.03	30.12
Radiologic Technologists	13	Active Listening, Speaking, Reading Comprehension	22.28	33.94
